

SyncGuardian is a free utility that enables you to take full control of your iPod's update status.

No more unwanted iPod synchronization or wiping by iTunes. SyncGuardian lets you relax when plugging your iPod to any computer, as it allows easy switches between iPod manual and automatic update.

SyncGuardian features include:

- Change your iPod's update mode without using iTunes. No update dramas possible!
- Detects your iPod before iTunes does (prevents iPod accidental deletion)
- View your iPod's update status (Automatic, Automatic for selected playlists, Manual)
- Check other iPod's settings such as:
  - Auto iTunes launch when iPod is connected
  - Disk use
  - Update checked songs
  - Artwork display on iPod
